

KEYper has teamed up with Sharebox, a leading provider of self-service kiosks and digital solutions for the automotive industry, to deliver seamless and efficient car/key handover solutions that fit your customers' busy lifestyles.

The **Sharebox i32** is an advanced, indoor, self-service kiosk that provides a seamless, hassle-free experience for customers. In addition to securely managing the collection and distribution of keys.

Key features include:

Automated customer interaction - Captures customer information to generate automated service orders and streamline communication

Upsell opportunities - Easily presents customers with additional services, helping to increase revenue.

24/7 accessibility - Available around the clock, ensuring flexibility for customers to retrieve or return keys at their convenience.

Customizable branding - Can be tailored to match your brand identity, creating a cohesive customer experience.

Integrated payment solutions - Supports multiple payment methods, allowing customers to settle fees and services through the kiosk.

Real-time inventory management - Monitors key availability and provides instant updates to your team, reducing operational errors.

24/7 self service

Automated, standalone kiosk, securely operated via display, SMS and web link

Leading in automotive

Built and used by dealerships, car rental companies, and service shops around the world

High quality

Steel frame and lockers are manufactured for long-lasting, secure operation

Easy installation

Enjoy simple floor-mounted installation inside your facility or lobby area

Installation

- Place kiosk on integrated metal base
- Connect power- and internet cables
- Mobile router can replace cabled internet

Security and maintenance

- The kiosk is designed for indoor use only, mounted on an integrated metal base
- For service purposes, the back plate can be removed
- All kiosks are remotely monitored and diagnosed by Sharebox. In case of malfunctioning or break-in situations, the operations center will be notified
- Software updates are done remotely. Kiosks within maintenance agreement will receive yearly preventive maintenance
