

## Self-service key exchange

KEYper has teamed up with Sharebox, a leading provider of self-service kiosks and digital solutions for the automotive industry, to deliver seamless and efficient car/key handover solutions that fit your customers' busy lifestyles.

The **Sharebox m-series** is a versatile indoor/outdoor self-service kiosk designed to streamline your key management process while providing a top-tier experience for your customers.

Key features include:

**24/7 secure access** - Enable customers to pick up and drop off keys at their convenience, anytime, anywhere.

**Fully digital and contactless** - Reduce wait times and improve efficiency with a smartphone-based process.

**Robust security** - Each transaction is logged and verified, with PIN or ID authentication ensuring only authorized users access the keys.

**Scalable for any business** - Ideal for car dealerships, rental agencies, fleet operators, and service centers.

**Weatherproof and durable** - Built for both indoor and outdoor use, ensuring reliable operation in all conditions.

### 24/7 self service

Automated, standalone kiosk, securely operated via display, SMS, web link, QR, or RFID

### Leading in automotive

Built and used by dealerships, car rental companies, and service shops around the world

### High quality

Steel frame and lockers are manufactured for long-lasting, secure operation

### Easy installation

Enjoy easy deployment and worry-free use in a sheltered outdoor or indoor environment

## Installation

- Mount to wall with custom steel brackets
- Connect power and internet cables (hardwire recommended)
- Mobile router can replace cabled internet

## Security and maintenance

- The m-series kiosks are designed for wall mounting only, indoor and outdoor. High-quality mounting hardware designed for the properties of the wall should be used.
- All kiosks are remotely monitored and diagnosed by Sharebox. In case of malfunctioning or break-in situations, the operations center will be notified.
- Kiosks within maintenance agreement will receive yearly remote preventive maintenance.
