

KEYper has partnered with Sharebox, a leading provider of self-service kiosks and digital solutions for the automotive industry, to deliver efficient and secure car/key handover solutions tailored to the needs of busy customers.

The Sharebox s32 is a secure, anti-theft-approved key exchange kiosk designed for outdoor use. It offers a seamless 24/7 key collection and distribution process, with every transaction recorded for complete visibility and accountability. Equipped with a user-friendly touchscreen interface, remote access control, and multi-factor authentication, the s32 ensures a smooth and secure experience for both businesses and customers. Its weather-resistant design, real-time status monitoring, and integration capabilities make it a reliable solution for dealerships, rental agencies, and service centers.

24/7 self service

Automated, standalone kiosk, securely operated with SMS, web Ilink, QR code, or FOB

Leading in automotive

Built and used by dealerships, car rental companies, and service shops around the world

High quality

Steel frame and lockers are manufactured for long-lasting, secure operation

Easy installation

Enjoy easy deployment and worry-free use in outdoor environments

Installation

- Kiosks are delivered upright with a concrete base, and can be moved with a pallet jack on flat surfaces.
- Option for delivery lying horizontally without concrete base (Small crane needed to lift kiosk to upright position)
- Power and internet to be connected (Local mobile router can optionally replace cabled internet)
- Roof with lighted logo field in front ordered separately
- Bolted to concrete ground with expansion bolts
- Alternatively, can be bolted to concrete wall with weight on ground

Security and maintenance

- All kiosks are remotely monitored and diagnosed by Sharebox. In case of malfunctioning or break-in situations, the operations center will be notified.
- Kiosks within maintenance agreement will receive yearly remote preventive maintenance.
